CABLE BEACH PRIMARY SCHOOL (Jun14)

The following will define the local-intake area of this school from 2015—

From the junction of Port Drive and the coastline, generally north along Port Drive (west side included) to the three way junction of Port Drive, Frederick Street and Cable Beach Road East, north from this junction through the Broome International Airport to the south east corner of the Bilunggur Aboriginal Community, north east and north west along the eastern boundary of this Community to a point due north of the junction of Frederick Street, Cable Beach Road East and Port Drive, north from the Community boundary to a point due east of the junction of Gubinge Road and Murray Road (south side included) and the westward extension of Murray Road to the coastline of the Indian Ocean, and south along the coastline to the junction with Port Drive.

This map is based on a written description of the local-intake area (LIA) for the school as published in the WA Government Gazette. Although the map closely represents the LIA description, for some houses near the boundary (especially on street corners), it may be necessary to refer to the written description. The street address of a residence is used to determine whether that dwelling is inside a particular LIA. The LIA description can be found in the School Profile System on the Department of Education website. While local-intake areas for most schools do not change from year to year, changes are made to local-intake areas as required. Such changes are published in the 'WA Government Gazette' (usually in a December issue) and subsequently this map will be updated. For any enquiries contact Department of Education.
